

MUNTHE

PRE SPRING 2025

FOREWORD

"Finding time for oneself is imperative for personal growth and finding inspiration. Throughout history, artists have embarked on journeys to feed their creativity. The creative mind wanders to uncharted realms, birthing fresh ideas that chart new paths.

The Pre-Spring 2025 collection draws inspiration from this lifestyle and mindset. It embodies a liberation of expression essential for individual evolution. Embracing the pursuit of art, creating art, feeling comfortable in one's own skin, and traveling are all essential.

Inspired by traveling artists, the collection features prints evoking sketches done against vast landscapes. The color palette includes light blue reminiscent of skies, creamy white representing clouds, and pink reflecting the flowers in bloom, alongside earthy tones signaling the transition from winter to spring."

- Naja Munthe

INSPIRATION

The Pre-Spring 2025 collection draws inspiration from the idea of a traveling artist and ethos of personal enrichment and creative enlightenment, encapsulating a spirit of liberation and self-expression essential for individual evolution. The collection celebrates the transformative power of artistic exploration.

Crafted from luxurious silks, delicate lace, and feather-like fabrics, each garment is a testament to the artistry and craftsmanship that lies at its core. Heavier woven fabrics and quilted patterns exude a sense of timeless elegance, while mesh dresses adorned with pearls in hues that mirror the main prints add a touch of refinement.

Striped denim and sweatshirts showcase intricate sketch patterns depicting expansive landscapes, while vintage-inspired elements lend a nostalgic charm to select pieces, infusing the collection with timeless allure.

Certain pieces in the collection are tailor-made for parties and celebrations, boasting sequin embellishments on long dresses and pin-striped suits adorned with crystals for added flair.

We uphold our commitment to more responsible practices with a yearly average minimum of 50% of all collections being created from more responsible materials, including organic cotton, Eco Vero viscose, and recycled polyester.
